September 26, 2018

Press Release

Tooley Water District is pleased to announce that Business Oregon (www.oregon4biz.com) has awarded Tooley Water District with a \$20,000 grant.

The purpose of this grant is twofold. First, system leaks will be identified via a leak detection study. Currently Tooley Water District is operating at approximately 30% system loss (system leaks). The second purpose of this grant is to map and document system components. This will include locating and documenting conduit and other assets system wide. This system documentation will be instrumental for future system maintenance and repairs.

Tooley Water District is a small water district located between The Dalles and Rowena. Tooley Water District currently serves 41 homes. Tooley Water District has no employees and contracts all maintenance services.

Tooley Water District will be seeking contractors to fulfill this grant via the request for quote process.

Tooley Water District would like to thank Mid Columbia Economic Development District (www.mcedd.org) as well as Wasco County Economic Development Commission for their support working with us to acquire this grant.

Any questions regarding this grant can be addressed to JohnAmery@TooleyWater.org
